# Ordering Process

The process and accompanying forms for PR’s and DO’s that are issued against a SEWP contract is defined by the issuing agency and not the NASA SEWP Program Management Office (PMO). The typical process, however, is for an end-user to determine a requirement and generate a purchase request (PR). The PR along with any necessary funding information is sent to that Agency’s procurement office which results in the issuance of a delivery order (DO). Any valid Federal Agency DO form and the associated delivery order number may be used. The NASA SEWP Program Management Office (PMO) does not issue DO’s - these must be issued through the issuing Agency’s procurement office. The SEWP Program Management Office (PMO) reviews, processes and tracks issued DOs and forwards them to the Contract Holder(s).

### General SEWP Order Flow:
