The Warehouse Manager will manage the safe, efficient, and timely flow and warehousing of goods; actively implement and control the overall distribution concept and strategy. You will lead a team responsible for receiving, movement, and shipping of parts and products throughout multiple locations, and shipments of all products. A focus on overseeing incoming and outgoing material to ensure accuracy and completeness.

Primary Responsibilities:

- Be an example for all in terms of ethics and compliance.
- Conduct yourself in a manner that is consistent with the Company's Code of Business Ethics and Conduct.
- Oversee production and packaging operations, inventory control, and the effective utilization of personnel
- Manage the domestic transportation logistics including cost and quality audits
- Work closely with various shipping carriers to assure standards are being met
- Provide Continuous Improvement Processes and work closely with the engineering team to develop these projects from inception to completion including implementation and training
- Review, analyze, modify, and implement efficient and effective department processes, policies, and procedures for all receiving, shipping and material handling operations
- Work with engineers to create first order build and develop process to ensure consistent outputs
- Train, supervise, motivate, lead and develop staging and integration staff; manage schedules and workflow
- Assign duties and monitor quality of staff work; assure staff conforms to organizational policies and government regulations
- Maintain metrics and analyze data to assess performance of personnel and implement improvements
- Review, develop, and implement warehouse location management processes including location optimization, safety considerations and reduction of touch time

Skills

- Commitment to excellence and high standards
- Strong organizational, problem-solving, and analytical skills are crucial to the success of this person in this role
- Ability to manage priorities and workflow
- Versatility, flexibility, and a willingness to work within constantly changing priorities with enthusiasm
- Ability to work independently and as a member of various teams and committees
- Proven ability to handle multiple projects and meet deadlines with strong sense of urgency
- Strong interpersonal and excellent written and oral communication skills
- Ability to deal effectively with a diversity of individuals at all organizational levels
- Demonstrated sound judgement with the ability to make timely and sound decisions
- Must be able to lift and move a minimum of 45 pounds without assistance
- Ability to drive a forklift
- Experience with and knowledge of data center technologies

Education:
