

Revamping Remote Work: Advice for Leaders

80% to 95%
of Feds transitioned to
telework due to the pandemic¹

Nearly three-fourths
of Federal employees believe their agency
will allow more teleworking after COVID-19²

Accelerate Digital Transformation; Accelerate Innovation

Build flexible, end-to-end solutions, so employees can seamlessly adapt to a world that's constantly changing

Implement policies and tools for edge environments

Ensure the right data is available to the right people, when they need it, and secure that data with cyber confidence

Gain visibility into cloud environments and evaluate systems and processes from an overall architecture and security standpoint

Consider how we can improve the way we work moving forward, and enable our workforce to meet mission goals efficiently

ThunderCat Technology and Dell Technologies help agencies evolve the remote work environment and enable a digital workplace through optimizing workloads, supporting applications and data, and managing increased networking capacity and security needs, remotely. Deliver tailored digital experiences to your workforce for increased productivity and worker-satisfaction.
