

Systems Engineer

Currently ranked #51 on the Solution Provider 500, the award winning ThunderCat Technology is a Service-Disabled Veteran-Owned Small Business (SDVOSB) that delivers technology products and services to government organizations, educational institutions, and commercial companies. Led by a combat-wounded CEO, ThunderCat is a systems integrator that brings an innovative approach to solving customer problems in and around the datacenter by providing strategies for Data Storage, Networking, Cyber Security, and Cloud Transformations. A proven leader, ThunderCat Technology provides and optimizes technologies from best of breed manufacturers. Clients include DOD, DHS, VA, Treasury, FBI, State of Virginia, State of NY, Sony, VISA, and CareFirst www.thundercattech.com.

ThunderCat's Systems Engineers are responsible for explaining complex technical topics to our clients with varying technical comprehension. Candidates will provide product demonstrations, presales support, and support for partner engagements for a variety of technologies in our portfolio. The team member will serve as a trusted consultant and advisor to our customers and must have hands-on technical skills with knowledge of security ecosystems.

The main responsibilities are:

- Assist sales team through preparation and delivery of technical presentations and statements of work by matching specific client business requirements with effective technical solutions.
- Participate in consultations and/or product capability assessments with prospects.
- Create relationships with key decision makers and serve as external technical spokesperson.
- Develop and maintain a broad knowledge of the live assistance/customer experience industry to stay aware of trends, issues and competition.
- Be an example for all in terms of ethics and compliance.
- Conduct yourself in a manner that is consistent with the Company's Code of Business Ethics and Conduct
- Explain findings and recommendations to technical and nontechnical audiences.
