

Boomi Unified Platform

ThunderCat & iPaaS

ThunderCat Technology was recently awarded the iPaaS (Platform as a Service) contract by James Madison University. The iPaaS contract is a VHEPC (Virginia Higher Education Procurement Consortium) contract. This means colleges/universities and all public entities can utilize this contract to procure Boomi without completing a formal solicitation process.

Boomi Unified Platform

The Boomi Unified Platform helps your educational institution deepen student engagement and increase staff productivity by unifying cloud and legacy on-premises application silos. Boomi simplifies the increasingly complex tasks of connecting and delivering data anytime, anywhere while accelerating your IT modernization projects. Boomi helps hundreds of universities tame the challenges associated with legacy and modern distributed technology and budgets, shortages of technical skills and accelerated demands of university leaders and students. This is accomplished in a cloud-native iPaaS that addresses all of your critical data management needs - from data catalog and mastering, to API and EDI to intelligent automation of workflow and applications. Boomi helps hundreds of universities tame the challenges associated with legacy and modern distributed technology and budgets, shortages of technical skills and

accelerated demands of university leaders and students. This is accomplished in a cloud-native iPaaS that addresses all of your critical data management needs - from data catalog and mastering, to API and EDI to intelligent automation of workflow and applications.

Agile data and application integration is essential for helping colleges and universities modernize their IT systems. Educational organizations must deliver information across desktop, mobile, and social platforms to tech-savvy students while boosting collaboration and productivity among university personnel.

The Boomi Unified Platform lets you build a more connected digital campus by bridging the gap between on-premises legacy systems and new cloud environments. Enrich your learning experience and stay

on-budget by integrating your diverse applications and data at a fraction of the time and cost of traditional middleware or custom-coding.

Through the breadth and depth of the Boomi AtomSphere Platform, we help you to solve complex integration challenges at a fraction of the time of traditional integration solutions, at the speed of business and across the entirety of your technical landscape - from Mainframe to Edge devices. Boomi provided universities all the benefits of the cloud, including flexibility, agility, design patterns, scalability, high availability, built-in redundancy, and automatic upgrades. Boomi connects everyone to everything with our AI Based, low-code, cloud-native, unified, open, intelligent platform.

Contract Name - (Commodity):	Enterprise Integrations Software (iPaaS)
Contractor:	ThunderCat Technology 1925 Isaac Newton Square E. Reston, VA 20190
Contract Number (#):	UCPJM06261
Vendor Contact:	Matt East 703-402-9929 meast@thundercattech.com https://www.thundercattech.com/
Buyer:	Johnson, Colleen johns9cm@jmu.edu 540-568-3137
SWAM:	S- Small Business
Current Term End:	3/28/2027
Renewals Remaining:	1, Five-Yr
Final Expiration:	3/28/2032
